

Bonfire Night 20212 Review 23-11-21

The conditions for the bonfire were near perfect. There was little wind, no rain and the temperature was mild.

The evening passed with no untoward incidents and there were many positive comments from the attending crowd.

A good attendance resulted in a healthy profit.

Issues to be considered:

- Planning to take place in August/September.
- Review of insurance.
- Consideration of an increase in the number of marshalls.
- Donations: an increasing number of payments are contactless: purchase of card readers?
